Dual-Nozzle Mechanical Bidet Attachment

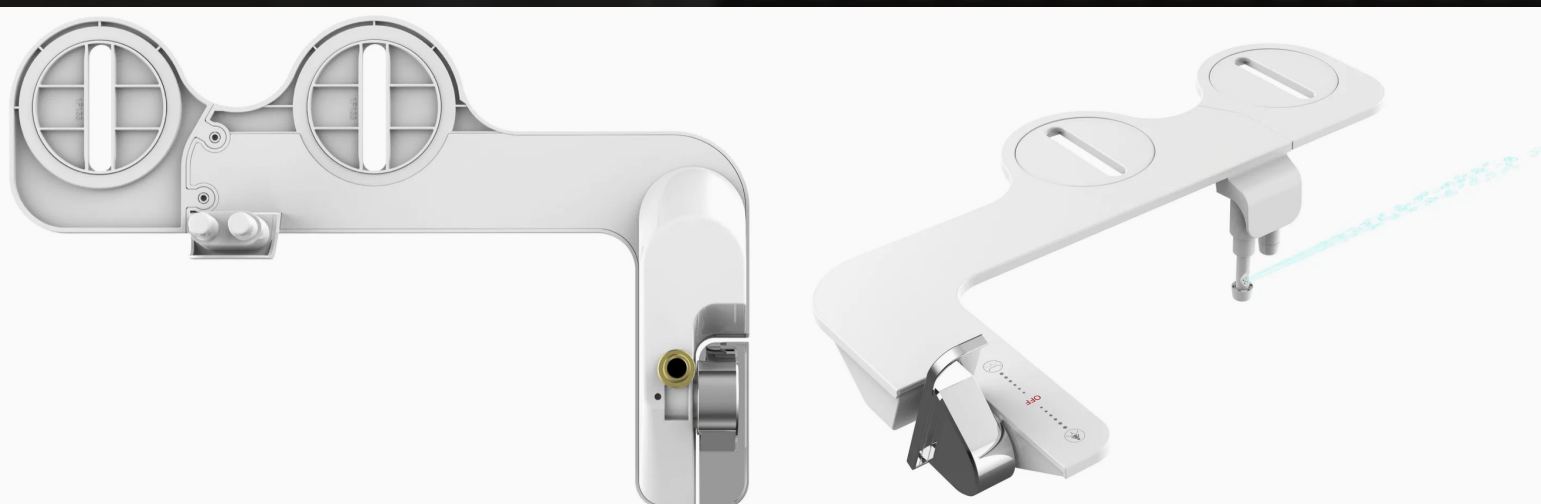

Product Overview

Dual-Nozzle Mechanical Bidet Attachment | C01

Designed to deliver enhanced hygiene, comfort, and convenience, this dual-nozzle mechanical bidet attachment provides an efficient cleaning solution without the need for electricity. Featuring independent front and rear cleansing functions, adjustable water pressure control, and a slim, modern profile, it offers an ideal balance between performance and affordability.

Constructed from durable polypropylene (PP) and engineered for long-term reliability, the bidet is compatible with most standard residential toilet installations. Its non-electric operation eliminates the need for power while providing dependable everyday performance with minimal maintenance.

Suitable for residential homes, apartments, hotels, guest accommodation, and commercial bathrooms, this bidet attachment offers a practical and environmentally responsible alternative to traditional toilet paper while improving everyday bathroom hygiene.

Key Features

- **Dual Self-Cleaning Nozzles**
Independent front and rear cleansing nozzles provide improved personal hygiene for multiple users.
- **Adjustable Water Pressure Control**
Integrated controls allow users to adjust water pressure for a comfortable and personalised cleaning experience.
- **Mechanical, Non-Electric Operation**
Operates without electricity, providing reliable performance while reducing maintenance requirements.
- **Slim Profile Design**
Low-profile construction integrates neatly beneath most standard toilet seats without altering bathroom aesthetics.
- **Soft-Close Compatible**
Designed for compatibility with soft-close toilet seats and standard residential toilet installations.
- **Durable Polypropylene Construction**
Manufactured from high-quality PP material for long-lasting durability and everyday reliability.

Key Features (continued)

- **Slow-Damper Mechanism**
Designed to support smooth and controlled operation while improving long-term product durability.
- **Easy Installation**
Installs using standard plumbing connections with minimal tools required.
- **1-Year Manufacturer's Warranty**
Supported by a 1-year manufacturer's warranty covering manufacturing defects and quality-related issues.
- **Built for Everyday Performance**
Engineered for reliable daily use in both residential and light commercial environments.
